

Multi-region reporting

Orbit Labs / Analytics workspace

Status: Approved | **Currency:** USD | **normal priority**

Request: 2e3ad08c-d86f-489f-838c-a07c9c73be3a

Revision: 660a8c76-ebda-4698-b4d2-e8ea42b80c03

Saved: 2026-09-02T10:00:00Z

Commercial impact

Change value: \$12,500.00

Estimated delivery cost: \$7,200.00

Estimated margin: \$5,300.00

Amounts exclude tax. Estimates are not invoices or recognized revenue.

Schedule impact

Current target: 2026-10-12

Adjustment: 10 calendar days

Proposed target: 2026-10-22

This adjustment applies to this request only. It is not an automatically calculated project delivery date.

Reason for change

A new stakeholder requirement was identified after the original scope was agreed.

Included scope

Design, implement and validate the requested capability. Include a review session and delivery notes.

Exclusions

Ongoing maintenance and additional integration work are outside this change.

Estimate details

1. Delivery package

1 units x \$12,500.00 = \$12,500.00

Internal cost per unit: \$7,200.00

Responsibility & source

Owner account: demo-owner

Linked Jira issue: None

Readers of this exported file can see the commercial details it contains. Jira and app permissions do not restrict a file after download.

Decision & activity history

Saved events in chronological order. Full structured snapshots are available in the JSON record export.
